Special Show and Tell

I have learned so much about the students this week with special show and tell. Students have brought in such interesting things they enjoy doing at home. We've seen time machines, paintings, games, puzzles, art work, sports hobbies, building hobbies. It has all been incredible impressive. Thank you for the support in this activity this week.

Reader's Theater

We had the opportunity to see Ms. Steven's first grade class perform Abiyoyo this week. The kindergarteners were a great audience!

Reading Buddies

This week we started reading buddies with Mrs. Marshall's second grade class. The kindergarten students were read to by a second grader. Later in the year we will be reading to the second graders as well.

Odds and Ends

- Our next science unit is The Five Senses. We could use a few materials, if you have this stuff at home, send it in! Bubble wrap, soft, silky ribbon or fabric (so we can cut it up!), sand paper, tooth picks, mini marshmallows.

Questions:

1. Ask your child the name of their reading buddy
2. Ask your child their favorite Special Share.

Have a restful vacation and I hope everyone can rest and get healthy!
