

Accelerated Reader

Students are required to read 12 books from various genres within or above their reading level. Although students are always welcome to read books within a wide range of reading levels, this portion of the reading program is designed to help students improve fluency and comprehension.

Upon completion of a book, students will notify us that they are ready to take an online quiz. They will log into their account and take quizzes for comprehension, literacy, and vocabulary. These results are recorded and reported directly to the students and the teacher. These records will assist in pacing, reading instruction, and book selections. Reports will be printed at every due date and as requested.

Due Dates:
