

Using your benefits at Walmart or Sam's Club locations

Walmart Supercenter and Sam's Club locations offer additional choices for your vision needs using EyeMed Access network. Walmart Supercenters and Sam's Club locations complement the EyeMed Access network, offering additional choices for your vision essentials. In-network benefits for materials, such as frames, lenses and contact lenses, are available at all Walmart and Sam's Club locations locally and nationwide.

Some Walmart and Sam's Club locations do not have a contracted Optometrist (O.D.) on site, so services such as exams may not apply to your in-network benefits. There may be other Access provider options that maximize your plan benefits. We recommend asking ahead of your appointment to confirm if there is an in-network O.D. on site and the location is full-service.

Prior to using your vision benefits at Walmart or Sam's Club locations, here are helpful tips to keep in mind:

- ▶ **Verify both the provider and location are in-network using the Provider Locator**

The Provider Locator can be found on the member portal. If the provider is not full-service, exams would be out-of-network or not offered at that location. <https://eyedoclocator.eyemedvisioncare.com/nedd/en-us>

- ▶ **When out-of-network benefits are applied**

If out-of-network benefits are applied, a claim form will need to be submitted for reimbursement. This form may be found on the member portal and submitted via the portal or by mail to EyeMed. Detailed instructions are included on the form. <https://member.eyemedvisioncare.com/nedd/en-us/private/out-of-network>

- ▶ **Additional discounts will not apply**

Due to Walmart and Sam's Club everyday low prices, discounts such as 40% off additional complete pairs of glasses, 20% off any remaining balance over the frame allowance, and 20% off items not covered under your benefits, will not apply.
