V. Annual School Report: Union Memorial School

This year, the schools are debuting a new format for their annual reports. Their presentations to the board will focus on goals outlined in their Continuous Improvement Plans (CIP) and they will supply an accompanying fact sheet which will include information such as enrollment, demographics, behavior and academic testing data from the 2018-2019 school year.

Union Memorial School Principal, Chris Antonicci, was the first to present his school report to the board. He started by providing an overview of the school’s CIP goals. Academically, those goals were focused on developing and implementing a new science curriculum and evolving the way they provide reading instruction to improve student comprehension and test scores. From a behavioral perspective, their CIP goal was to continue to offer targeted positive interventions to students needing additional support.
The board engaged Principal Antonucci on sections of the academic data asking more specific questions about which cohorts of students were tested, what the testing looked like and how often it was administered.

VI. Second and Final Reading of Fiscal and Business Management Policy: E1

Action

No edits requested.

_Director Kieny moved to approve the second and final reading of the Fiscal and Business Management Policy: E1, seconded by Director Cox. The motion passed unanimously, 5-0._

VII. First Reading of Location Action Plan Policy: G8

Action

This policy was brought before the board as part of the policy revision cycle. It was last reviewed in 2003. The only recommended change was to update “Local Action Plan” to “Continuous Improvement Plan” to reflect the current language used by the VT Agency of Education.

_Director Cox moved to approve the first reading of the Continuous Improvement Plan Policy: G8, seconded by Director White. The motion passed unanimously, 5-0._

VIII. First Reading of Parents and Community Involvement Policy: H2

Action

This policy was brought before the board as part of the policy revision cycle. It was last reviewed in 2007. To reflect the evolving dynamic of families in the district, the word “parent” was replaced with “caregiver”. The majority of the content was kept the same, however, the old mission statement was removed and some research-based language suggested by the Vermont School Board Association was added. Also added was a section specifically referencing the involvement of caregivers of students receiving Title 1 services. Director Cox voiced concern with the term “caregiver” as a replacement for “parent”. Although she agrees with the need to expand the exclusiveness of the term “parent”, she asked if “caregiver” could be defined as a legal guardian in the policy to make it more explicit in regards to the release of information under federal education privacy laws. Director White asked that there be added language speaking to the involvement of the community. Director Taylor requested several wording changes in the implementation section.

_Director Cox moved to approve the first reading of the Caregivers and Community Involvement Policy: H2, seconded by Director Kieny. The motion passed unanimously, 5-0._

IX. First Reading of Comparability Policy: G2

Action

This policy was brought before the board as part of the policy revision cycle. It was last reviewed in 2005. This policy is required in order for the district to receive Title funds. For that reason, it was suggested that the title of the policy include the term “Title I”. The draft policy is reformatted and has some updated content and language to better align with the Vermont School Board Association’s model policy.

_Director Kieny moved to approve the first reading of the Title I Comparability Policy: G2, seconded by Director White. The motion passed unanimously, 5-0._
