### Joelle van Lent at Staff Meeting on June 6th

#### Morning Meeting Resources

Next year we will have a place in our schedule for a Morning Meeting on a daily basis. Most classrooms are currently doing some form of Morning Meeting or class meeting during the day. There is significant research on Morning Meeting and improved academic and social outcomes for students.

The Morning Meeting consists of a greeting, share, activity, and daily announcements. The structure connects to many MBS school and district goals, including Equity and PBIS. Academic connections can also be made to morning meeting.

Here are some resources for Morning Meeting. We'll buy you one of these \_ books if you are interested in resources for next year. You may consider collaborating with a teammate to share resources. Here's a [google form for classroom teachers to complete](#) with links to resources. Please complete before June 19th so we can order for next school year.

Joelle van Lent will be back at our faculty meeting on June 6th. Joelle's work is on resilience and the essential skill building all kids need to develop resilience including executive function, social skills and emotional regulation. A lot of the work Joelle will be doing with us as a staff will be on emotional regulation. Joelle's presentation will focus on emotional regulation and closure with our students at the end of the school year.

Some of our 3rd graders at the Letterbox Challenge! Thank you to Gregg for organizing!
