Here is a list of **OPTIONAL learning activities/sites** that you can use with your child throughout the summer. Please know that this is not meant to overwhelm you. We hope that all children will continue to read over the course of the summer, but also know that some families may be looking for a little more. Please note: ***SeeSaw activities have been archived and are no longer available***.

- Please encourage your child to spend at least **15-20 minutes a day reading** independently (this could be done with hard copy books or RAZ-Kids) and review [sight words](#).

- Login codes were sent by your child’s teacher (they are the same ones you used this spring during remote learning). All online accounts (Dreambox Learning, Everyday Math, RAZ-Kids, etc.) will remain active through the summer.

- Practice your Math facts (addition/subtraction) - If you don’t have flashcards, here’s a site: [https://xtramath.org/#/home/index](https://xtramath.org/#/home/index)

- [Math Enrichment Link](#) (Please note that this is a very thorough document and can be used however you see fit.)

- [Literacy Enrichment Link](#) (Please note that this is a very thorough document and can be used however you see fit.)
